6005 SHUT OFF VALVE

This valve has been designed for Air use but may be used with Oxygen if cleaned.
The seals are compatible with Oxygen.

It has been designed as an end of charging hose fitting into which you can screw any of our charging adapters.

When using our adapters use a 10x2mm "O" Ring. But you should lubricate with an appropriate grease before assembly.

This valve is a balanced valve using components that are used in our cylinder valves.

A service kit Part No: 6005-SK is available.
The seat is brass with a nylon insert.

You may see our full range of fittings on our website but if you have any questions please contact us.

Maximum W.P. is 300 Bar
